BUSINESS PLANNING

BUSINESS MAPPING: DEVELOPING A SMART BUSINESS MODEL

Struggling with the complexities of a business plan? Business mapping helps to deconstruct the formal elements of a business plan, simplifying a lot of the information into bite-sized pieces. It covers the same aspects as a more traditional business plan, without going into as much granular detail.

Join Dylan Hrycshen, Small Business BC as he provides you with a lean start-up canvas for developing a new business that segments your potential enterprise into nine easy to understand chunks.

What will I learn?

- Learn how to evaluate your business idea
- Understand the key areas of a successful business model
- Discuss your business viability through practical workshopping
- How to map your business out on a worksheet
- Clarify types of business structures and requirements
- The different financing options available for your new venture

WRITING A BUSINESS PLAN

Writing a business plan provides a roadmap to success for your business. It will outline your goals and the steps you will take to achieve them. This seminar will take a deep dive into the various aspects of a business plan and the key questions you need to address in each. You'll identify the gaps in your plan and the areas you need to develop further. You'll also find out about business plan reviewing and how it can take your start-up to the next phase.

Join Laura Aveledo, Small Business BC Business Planning Advisor, for this seminar where you will learn the key components of a business plan and leave with a framework for moving your ideas to the next level.

What will I learn?

- What each section of a business plan should look like
- Identify the gaps in your plan
- The key questions you'll need to address in your plan
- How to develop areas of your plan that need work
- The advantages of a business plan consultation
- The keys to conveying a cohesive and compelling business plan

EARLY STAGE FINANCING FOR SMALL BUSINESS

Entrepreneurs and their ideas come in all shapes and sizes but the one common issue they all must address is early stage financing. It's estimated that roughly 82% of new businesses fail due to cashflow problems.

So, how do you secure that all-important early stage financing? In this seminar, representatives from Vancity Microfinance and Futurpreneur Canada will walk you through the steps needed to acquire start-up funds.

What will I learn?

- Understand the various financing options available
- How your credit rating can affect the process
- Insight on how to get a "yes" from a lender
- The importance of your business plan
- How mentorship can help you
- The role of community building

Presented by Small Business BC, Futurpreneur and Vancity

EXPORT

HOW TO START EXPORTING FROM CANADA

Do you plan to export products to foreign markets but don't know where to start or what to do? Book this seminar today and prepare your business to be export ready in a strategic and planned way.

What will I learn?

- Step-by-step guide to the requirements for exporting goods out of Canada.
- Evaluate the competitiveness of your business in the global market.
- Identify the distribution channels available to your business.
- Understand the use of INCOTERMS and how to access Canadian and Foreign government regulations.
- Know the different payment means that exist across borders.

Mixing a marketing and financial focus, our pricing strategies seminar will get to the heart of how pricing plays an important part of your strategy for business success.

Join Bill Erichson, Pacific Training Innovations, as he challenges your assumptions about pricing, costing and how they fit into the bigger picture of your business. Whether you're a start-up, or building growth and resiliency, expanding your knowledge of pricing and costing is a worthwhile investment of your time.

What will I learn?

- Understand the four C's of pricing: Costs, Constraints, Customers and Competition
- The underlying role price plays on customer buying behaviour
- What are your fixed costs and variable costs
- What is total absorption costing
- How to use pricing as a comparative
- Pricing for sales vs. pricing for profits
- When is the right time to review your prices?
